Niccolò Paganini was not only a legendary violin virtuoso – he was also a passionate guitarist and chamber musician. This programme sheds light on a lesser-known but fascinating side of his work, bringing together his String Quartet in A minor, Guitar Quartet No. 15, and Boccherini's sparkling Guitar Quintet with the famous 'Fandango', alongside arrangements of the Caprice No. 24 and La Campanella for guitar and string quartet.

What makes this project truly unique is the instruments: the Goldmund Quartett performs on the celebrated Stradivari Paganini Quartet, on loan from the Nippon Music Foundation, while Carlotta Dalia plays a historic guitar once owned by Paganini himself. History made audible.

The recording will be released on Berlin Classics on 11 September 2026.
